come from thee. For billions of years and this great e - co - system e -  
take from thee. If thou shouldst die, then we must die al - so;

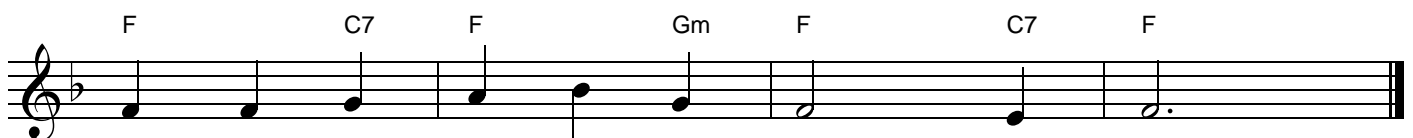

soa - ring moun - tains and roa - ring seas. Tour thy pla - net, re -

joice in thy mo - ther: wal - king the land and brea - thing  
world we were born to, here where we have our own place in the
